Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 23-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23 and thus its dependent claims are vague for the following reasons. Claim 23 line 15 recites "the defined portion holding said first species". This language should be deleted since the language should be referring to each of the defined portion (as indicated earlier in lines 9-10), at least one of which has attached first species and at least one of which does not have a first species, as implied by the language "where no interaction takes place" in lines 6-7.

Allowable Subject Matter

Claims 30-32 are allowed.

Claims 23-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter.

As to independent claim 23, the primary reason for allowance is the inclusion of the limitations regarding the steps of exposing a defined portion to a liquid containing a second species, and temporarily reducing the amount of liquid being in contact with the defined portion such that a reduced volume of the liquid remains in contact with the defined portion, and performing a measurement of the defined portion covered with the temporarily reduced amount of liquid, and increasing the amount of liquid in contact with the defined portion so as to again expose the defined portion to the liquid containing a second species.

As to independent claim 30, the primary reason for allowance is the inclusion of the limitations of a mechanism for stirring of liquid on a solid support and for temporarily reducing in a defined area in the course of a detection and for subsequently increasing the amount of liquid in contact with the defined area, wherein the solid support is arranged such that it will not come in contact with any liquids other than the liquid containing the second species during the course of the detection.

It is noted that Applicant's arguments filed April 30, 2010 are found persuasive regarding the newly added claims with limitations that are not disclosed or suggested by Wigstrom for the reasons argued by Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. 20040137607 discloses tilting a substrate to send materials to a waste reservoir.
